

# Clean

Eastern Idaho Regional Medical Center meets or exceeds all recommendations from the Centers for Disease Control for preventing infection in healthcare settings.

These stringent guidelines are voluntary, and are being followed by only a few of the nation's hospitals.

The truth is, infection rates at EIRMC are *less than half* those predicted by the CDC for hospitals this size.

At Eastern Idaho Regional Medical Center, we're into "clean," so you can be into getting better, faster.

To download a free brochure on how you can help protect yourself from infection and contagious disease, visit our website at [www.eirmc.com/cpm/stopinfection](http://www.eirmc.com/cpm/stopinfection).

3100 Channing Way, Idaho Falls, ID 83404, (208) 529-6111
